Easy operation for enhanced performance

Iron upper cover

Easy-to-open upper cover made of iron steel simplify the maintenance and service. It also prevents in-accident damage to the truck body, battery and inside components.

Ergonomically-designed Operation Handle

Battery Discharge Indicator, working hours, error code can be read directly from the multi-function intelligent operation handle.

Standard Internal Charger

The internal charger provides a convenient solution when charging the pallet truck. No worries about finding your chargers when you need it.

Standard equipped with Lead-acid battery for longer working time.
Of course you can choose Lithium battery as well, with 2,000 charging cycles.

1 Easier Entry& Exit Forks

Special designed forks offers longer life span, and it's also friendly for application of different type of pallets.

2 Electric Lifting & Lowering

Electric lifting and electric lowering makes operation easier, faster and comfortable. Lifting limit switch offers smooth lifting experience for the operator, as well as less damage to the goods and motor.

3 Powerful Drive Motor

Drive motor with higher performance and reliable quality, enables the truck to be used for different applications.
1.5Ton is 24V DC motor with brush, and 2 Ton is 48V DC motor with brush-less.

4 Auxiliary wheels (Standard for 2T)

Auxiliary wheels are optional for 1.5Ton, and this makes the truck more stable when driving over uneven floors and turning around.
