Self-propelled Electric Scissor Lifts

HANGCHA self-propelled electric scissor lifts are the high efficient, safe and ideal solution for modern industry. Ideal for maneuvering in tight Spaces, they’re excellent for indoor and outdoor applications all the functions, lifting, lowering, steering, forward and backward are under operator’s control. Easy maintenance and service after opening the battery cover, all key parts are easy access. With low noise level, and high reliability, HANGCHA self-propelled electric scissor lifts are always your best partner.

Characteristics
- The proportional control system: Control the speed of traveling and lifting as you need.
- Control box: This box is including the functions of traveling and lifting, when you use the joystick, you can operate the machine with only one hand.
- Self-leveling sensor: When the degree is more than 1.5° (width direction) /3° (lengthwise direction), it will alarm.
- LED display: Easy for maintenance.
- Steering system: The turning radius is small in narrow space.
- Extension deck: You can reach the working place by the extended platform.
- Reasonable arrangement: All the parts of hydraulic system and electric system are located in the side doors, convenient to repair.
- Safety: Alloy steel axis, to make sure the safety, reliable and efficient.
- Internal charger: You can charge the battery directly, do not need to remove it from machine.
- Hydrostatic transmission: Using hydrostatic transmission system technology.

Application
- Stations, dock, airport, powerstation, gym, big company etc.

Standard Equipment
- The lifting system
- The proportional control
- Anti-overturning system
- Control box
- Internal Charger
- Hour meter
- Local battery

Options
- Working lights(two lights)
- 220v socket
- Beeper
- Alarm light
- Anti-overload system
- Pneumatic pipe
